

# Announcing the 1<sup>st</sup> Annual DefCon WarDriving Contest

Netstumbler.com is proud to support the DefCon 10 WarDrive.

## The Rules:

- WarDriving teams will consist of up to four members.
- Teams are responsible for providing their own equipment
- Participants must register with Chris in the Vendor Area on Friday between 10 AM and 6 PM.
- If you don't have a full team, DefCon staff will assign you to a team on Friday so you can still participate.
- Wardrive Roll Call will take place on Saturday at 12:30 (Location to be announced)
- ALL team members must be present for Roll Call.
- The WarDrive will take place on Saturday from 1 PM until 3 PM.
- All federal, state and local laws (to include traffic laws) must be obeyed.
- At the conclusion of the WarDrive, each team will submit their data to the contest judges in wi-scan/wl-scan format
- The location (latitude and longitude) of a qualifying AP must be submitted

## Scoring:

Each team will be scored by the following criteria:

- 1 point for each Access Point (AP) found
- 2 additional points for an AP that has a default SSID and WEP disabled
- 5 Additional points for an AP that no other team finds

Team with the most points wins.

**We are proud to announce that the judging will be performed by the inventor of WarDriving, Pete Shipley!**

## The Prize:

- There can be only one (team that is).
- The winning team will be awarded the prize.
- The prize will be announced, but it is good.
- Additional prizes have been provided by Netstumbler.com, BSDatwork.com, and Shadow Incorporated.

Special thanks to Blackwave, EMP, and Pete Shipley for their support on the WarDriving contest.
